Brainhunter Inc. (Unaudited)
Notes to Consolidated Financial Statements
June 30, 2007

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

[a] Basis of consolidation

These consolidated interim financial statements have been prepared in accordance with Canadian generally accepted accounting principles ["Canadian GAAP"] and include the accounts of Brainhunter Inc. and from the respective dates of acquisition of control, its wholly owned subsidiaries, collectively referred to herein as the "Company". All significant inter-company balances and transactions have been eliminated on consolidation.

The interim financial statements follow the same accounting policies and methods of their application as the most recently issued annual financial statements, except for the change in accounting policies discussed in note 1 [q].

[b] Revenue recognition

The Company provides computer and engineer consultant placements to customers based on written agreements. Revenue from contracts that is earned over a period of time is recognized monthly when clients are billed for hours worked at agreed rates. Other one-time fees earned for individual placements are recognized in the month the individual commences the new job.

The Company enters into written contracts with customers to complete specific software consulting projects. Customer billings are prepared monthly based on hours worked and agreed rates, at which time revenue is recognized. To a significantly lesser degree, certain other contracts are fixed-price, for which revenue is recognized monthly using the percentage of completion basis.

Service revenue on fixed-price contracts is recognized on a percentage of completion basis whereby revenue is recorded at the estimated net realizable value of work completed to date. Estimated losses on contracts in progress are recognized when known. Deferred revenue represents amounts billed in advance of satisfying the related service.

The Company earns revenue from software licenses for in-house developed software that is deferred and amortized over the term of the license. Software implementation revenue is recognized in the period the implementation is completed.

The Company's accounting policy complies with the revenue determination requirements set forth in EIC-142, "Revenue Arrangements with Multiple Deliverables", relating to the separation of multiple deliverables into individual accounting units with determinable fair values.

[c] Capital assets

Capital assets are recorded at cost, less related investment tax credits. Amortization is provided for over the estimated useful lives of the related assets at the following annual rates and methods:

Furniture and office equipment	20% declining balance
Computer equipment	30% declining balance
Computer software	100% declining balance
Developed software	Straight-line over 5 years
Leasehold improvements	Straight-line over the lease term

Brainhunter Inc. (Unaudited)
Notes to Consolidated Financial Statements
June 30, 2007

[d] Goodwill

Goodwill represents the excess of the purchase consideration paid over the fair value of identifiable net assets of acquired businesses. Goodwill is tested for impairment annually, or more frequently if events or changes in circumstances indicate that the asset might be impaired. The impairment test is carried out in two steps. In the first step, the carrying amount of the reporting unit is compared with its fair value. When the fair value of a reporting unit exceeds its carrying amount, goodwill of the reporting unit is considered not to be impaired and the second step of the impairment test is unnecessary. The second step is carried out when the carrying amount of a reporting unit exceeds its fair value, in which case the implied fair value of the reporting unit's goodwill is compared with its carrying amount to measure the amount of the impairment loss, if any. The implied fair value of goodwill is determined in the same manner as the value of goodwill is determined in a business combination, using the fair value of the reporting unit as if it was the purchase price. When the carrying amount of the reporting unit's goodwill exceeds the implied fair value of the goodwill, an impairment loss is recognized in an amount equal to the excess and is presented as a separate line item in the consolidated statement of operations.

[e] Intangible assets

Intangible assets, comprising contracts, non-competes, customer relationships, trademarks, trade names, internet domain addresses, and patented technology are being amortized on a straight-line basis over their estimated period of benefit which varies from two to five years.

[f] Income taxes

The Company provides for income taxes using the liability method of tax allocation. Under this method, future income tax assets and liabilities are determined based on deductible or taxable temporary differences between the financial statement values and tax value of assets and liabilities and for the benefit of tax losses that are carried forward to offset future years' current taxes payable if they are likely to be realized. Future tax assets and liabilities are measured using the substantively enacted tax rates and laws that will be in effect when the differences are expected to reverse.

The Company establishes a valuation allowance against future income tax assets if, based upon available information, it is more likely than not that some of or all of the future income tax assets may not be realized.

[g] Deferred lease inducements

Leasehold inducements comprise free rent and leasehold improvement incentives. Leasehold inducements are deferred and amortized to reduce rental expense on a straight-line basis over the term of the related lease.

[h] Research and development

Research and development costs are expensed as incurred unless the development costs meet certain generally accepted accounting criteria in Canada.

[i] Investment tax credits

Investment tax credits relating to qualifying research and development expenditures are recorded as a reduction from the expenditures or assets to which they relate and there is reasonable assurance that the investment tax credits will be realized.

Brainhunter Inc. (Unaudited)
Notes to Consolidated Financial Statements
June 30, 2007

[j] Foreign currency translation

Monetary assets and liabilities denominated in foreign currencies are translated into Canadian dollars at the rate of exchange prevailing at year end. Revenue and expense items are translated into Canadian dollars using exchange rates in effect on the transaction dates. Gains and losses from translation activities are included in earnings for the year.

[k] Financial instruments

The fair value of financial instruments approximates their carrying value unless otherwise disclosed in the consolidated financial statements.

[l] Use of estimates and assumptions

The preparation of financial statements in conformity with Canadian GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Such estimates include the allowance for potentially uncollectible accounts receivable, accrued liabilities, the length of product cycles and the related useful life of capital assets, providing for the recovery of investment tax credits, and providing for a valuation allowance for future income tax credits and the classification of the current year's benefit expected to be realized, all of which are based on management's best estimates. By their nature, these estimates are subject to measurement uncertainty and the effect on these consolidated financial statements of changes in estimates in future periods could be significant. Actual results could differ from those estimates.

[m] Deferred financing costs

Financing costs relating to long-term debt are deferred and amortized on the straight-line basis over the term of the debt.

[n] Impairment of long-lived assets

The Company reviews long-lived assets such as capital assets and intangible assets whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. When indicators of impairment of the carrying value of the assets exist and the carrying value is greater than the net recoverable value, an impairment loss is recognized to the extent that the fair value is below the carrying value.

[o] Asset retirement obligations

Effective October 1, 2004, the Company adopted the recommendations of CICA Section 3110, "Asset Retirement Obligations" ["CICA 3110"]. Under the new standard the Company records the fair value of a liability for an asset retirement obligation in the period in which it is incurred. The associated asset retirement costs are capitalized as part of the carrying amount of the long-lived asset and amortized over the expected useful life of the asset. The adoption of CICA 3110 did not have any impact on the Company's consolidated financial statements.

[p] Stock-based compensation

Effective October 1, 2004 the Company adopted retroactively, without restatement, the revisions to CICA Handbook Section 3870, *Stock-Based Compensation and Other Stock-Based Payments* ["CICA 3870"]. Under this standard, the Company accounts for stock options using the fair value method.

Brainhunter Inc. (Unaudited)
Notes to Consolidated Financial Statements
June 30, 2007

Under this method, compensation expense for stock options granted is measured at the fair value at the grant date using the Black-Scholes valuation model and charged to operations over the vesting period of the options granted, with a corresponding credit to contributed surplus.

[q] Financial Instruments

Effective October 1, 2006, the Company adopted the recommendations of CICA Section 3855, "Financial Instruments - Recognition and Measurement", which describes the standards for recognizing and measuring financial assets, financial liabilities and non-financial derivatives. All financial assets, except for those classified as held-to-maturity, loans and receivables, and derivative financial instruments are measured at their fair values. All financial liabilities are measured at their fair values when they are classified as held for trading purposes. Otherwise, they are measured at their carrying value. The impact of the adoption of this new section did not have a significant effect on the consolidated financial statements.

2. BUSINESS ACQUISITIONS

Year ending September 30, 2006

AJJA Information Technology Consultants Inc.

On October 11, 2005, 100% of the common and preference shares of AJJA Information Technology Consultants Inc. ("AJJA"), an information technology staffing company, were acquired for cash, convertible notes, and zero-interest vendor-take-back loans. The convertible notes have a nominal value of \$4,000,000 and are to be repaid \$650,000 quarterly plus interest beginning December 31, 2006 and \$675,000 quarterly plus interest beginning June 30, 2007. Interest is payable on each payment date at the rate equivalent to that on a 90-day Canadian Treasury Bill for the 90-day period immediately preceding each payment date, with interest accruing from October 1, 2006. The notes are convertible over their term to common shares of the Company at an exercise price of \$1.00 per share. In accordance with CICA 3860, the convertible notes are to be separated into two components: a financial liability to make future payments and an equity instrument that is effectively a call option granting the holder the right, for a specified period of time, to convert into common shares of the Company. The Company has calculated the fair value of the financial liability component of the convertible notes to be \$3,122,573 by discounting the quarterly payments of principal plus estimated interest using an effective interest rate of 15% per annum. This discount on the convertible notes is being charged to interest expense over the term of the loan. The carrying amount of the equity instrument, \$877,427, was determined by deducting the fair value of the financial liability from the amount of the convertible notes as a whole. The zero-interest vendor-take-back loans have a nominal value of \$2,200,000 and are to be repaid \$36,667 monthly for 60 months. The Company has calculated the fair value of the vendor-take-back loans to be \$1,541,268 by discounting the monthly payments using an effective interest rate of 15%. This discount on the vendor-take-back loans is being charged to interest expense over the term of the loans. The results of AJJA have been consolidated commencing October 11, 2005.

Brainhunter Inc. (Unaudited)
Notes to Consolidated Financial Statements
June 30, 2007

The Company accounted for the acquisition of AJJA using the purchase method of accounting. The purchase price for the AJJA acquisition has been allocated to identifiable tangible and intangible assets acquired and liabilities assumed based on their estimated fair values as follows:

	\$
Working capital	1,233,833
Capital assets	185,771
Intangible assets – existing contracts	600,000
Intangible assets - customer relationships	6,000,000
Intangible assets - non-competition agreements	500,000
Future income tax liability	(2,564,520)
Goodwill	6,375,685
	12,330,769

The purchase price components for the acquisition of AJJA are:

	\$
Cash consideration	6,200,000
Liability portion of notes	3,122,573
Conversion rights on notes	877,427
Vendor-take-back loans	1,541,268
Transaction costs	589,501
	12,330,769

Included in the amount for transaction costs above is an amount of \$56,978 which remained unpaid at the balance sheet date.

The costs of the intangible assets are being amortized on a straight-line basis as follows:

Customer relationships	5 years
Existing contracts	2 years
Non-competition agreements	3 years

iGate Mastech Ltd.

On November 16, 2005, 100% of the common shares of iGate Mastech Ltd. (“iGate”), an information technology staffing company, were acquired for cash and a promissory note. The promissory note has a nominal value of \$500,000 that is due November 16, 2007. The promissory note pays interest only quarterly at the rate equivalent to that on a 90-day Canadian Treasury Bill for the 90-day period immediately preceding each payment date. The Company has calculated the fair value of the vendor take-back loan to be \$399,829 by discounting the nominal value plus the stream of estimated quarterly interest payments using an effective interest rate of 15% per annum. This discount on the promissory note is being charged to interest expense over the term of the note. The results of iGate have been consolidated commencing November 16, 2005.

Brainhunter Inc. (Unaudited)
Notes to Consolidated Financial Statements
June 30, 2007

The Company accounted for the acquisition of iGate using the purchase method of accounting. The purchase price for the iGate acquisition has been allocated to identifiable tangible and intangible assets acquired and liabilities assumed based on their estimated fair values as follows:

	\$
Working capital	5,410,259
Property and equipment	243,159
Intangibles - existing contracts	400,000
Intangibles - customer relationships	5,300,000
Liability for premise leases	(574,441)
Future income tax liability	(1,418,765)
Goodwill	4,474,713
Total	13,834,925

The purchase price components for the acquisition of iGate are:

	\$
Cash consideration	12,534,096
Vendor-take-back loan	399,829
Transaction costs	901,000
	13,834,925

Included in the amount for transaction costs above is an amount of \$289,316 which remained unpaid at the balance sheet date. In addition, an amount of \$273,038 of the liability for premises leases remains unpaid at the balance sheet date.

The costs of the intangible assets are being amortized on a straight-line basis as follows:

Customer relationships	5 years
Existing contracts	2 years

3. INVESTMENT TAX CREDITS RECOVERABLE

	June 30, 2007	September 30, 2006

1.88	February, 2007	283,335	-	-	(283,335)	-	-
1.96	January, 2007	250,000	-	-	(250,000)	-	-
2.09	March, 2008	500,000	-	-	-	500,000	500,000
1.00 - 2.09		9,525,460	-	-	(888,335)	8,637,125	8,131,751

[e] Loss per share

The following table details the weighted average number of common shares outstanding for each of the three months ended June 30th:

	June 30, 2007 #	June 30, 2006 #
Basic	43,191,478	42,390,872
Diluted	43,191,478	42,390,872

As a result of the net loss for the three months ended June 30, 2007 the potentially dilutive securities have not been included in the calculation of diluted loss per share, because to do so, would have been anti-dilutive.

Brainhunter Inc. (Unaudited)
Notes to Consolidated Financial Statements
June 30, 2007

[f] Equity components of convertible note obligations

The variations in the equity component of convertible note obligations are as follows:

	June 30, 2007	September 30 2006
	\$	\$
Beginning balance	(9 months) 1,607,726	(12 months) 53,040
Equity components of obligations issued:		
AJJA convertible notes	-	877,427
8% Convertible notes	-	677,259
10% Convertible notes	129,763	
Ending balance	1,737,489	1,607,726

[g] Escrowed shares

At June 30, 2007 no common shares were held in escrow.

12. NET CHANGE IN NON-CASH WORKING CAPITAL ITEMS

The net change in non-cash operating elements of working capital consists of the following:

	<u>For the three months ended</u>		<u>For the nine months ended</u>	
	June 30, 2007	June 30, 2006	June 30, 2007	June 30, 2006
Accounts receivable	(110,127)	(150,340)	(3,770,596)	(2,659,108)
Deposits and prepaid expenses	(101,513)	26,284	84,289	(166,186)
Accounts payable and accruals	(713,574)	665,092	360,530	4,169,132
Deferred revenue	(84,445)	(123,576)	67,069	200,694
	(1,009,659)	417,460	(3,258,708)	1,544,532

13. SEGMENT REPORTING

Management has determined that substantially all the Company's operations are in one business segment, that of human capital management, and hence the Company reports all results as one segment.

14. FINANCIAL INSTRUMENTS

[a] Fair value

The fair values of the Company's current assets and current liabilities approximate their carrying values due to their short-term nature. The fair market value of long-term debt approximates carrying value based on the Company's current borrowing rates for similar types of borrowing arrangements.

Brainhunter Inc. (Unaudited)
Notes to Consolidated Financial Statements
June 30, 2007

[b] Credit risk

The Company manages its credit risk with respect to accounts receivable primarily by dealing with creditworthy customers. Substantially all of the Company's revenue and the resulting accounts receivable are from large companies and governmental agencies.

A significant portion of the Company's revenue is derived from the Federal Government of Canada. During the period, 38.2% of revenues related to various Federal Government of Canada agencies and departments.

At period end, the accounts receivable from all Federal Government of Canada were 33% of the Company's total accounts receivable.

[c] Foreign currency rate risk

The Company is exposed to risk due to fluctuations in the exchange rate of the U.S. dollar in relation to the Canadian dollar. In the 9 month period ending June 30, 2007 the Company recorded a foreign exchange loss of \$77,004.24 [2006 – loss of \$112,077.96].

[d] Interest rate risk

The Company is exposed to interest rate risk in the event of fluctuation of the Canadian dollar prime rate on the term bank facility.

15. SUBSEQUENT EVENTS

The Company has determined that as part of the purchase price of previously completed acquisitions, the Company will be issuing approximately 230,000 shares of the Company.

16. COMPARATIVE CONSOLIDATED FINANCIAL STATEMENTS

The comparative consolidated financial statements have been reclassified from statements previously presented to conform to the current presentation.

17. COMPREHENSIVE INCOME

The Company has not effected transactions involving financial instruments or other assets or liabilities which would result in Comprehensive Income different from Net Income.

18. UNAUDITED INTERIM FINANCIAL STATEMENTS

These unaudited interim financial statements were not reviewed by the Company's external auditor.
